

Tan Char Loo
Singapore

Dr Tan Char Loo earned her degree from the University of Malaya, Malaysia in 2009. Following that, she underwent Anatomic Pathology training at the Department of Pathology, National University Hospital, Singapore. She successfully completed her specialist training in Anatomic Pathology in 2015, becoming a Fellow of the Royal College of Pathologists of Australasia. Subsequently, she pursued a year of subspecialty training in neuropathology at Duke University Medical Centre in North Carolina and the University of California, San Francisco.

Serving as the primary neuropathologist at the National University Hospital, Dr Tan also accepts external cases for consultation from institutions in Singapore and neighbouring countries. She also holds a position as a visiting consultant to the Department of Pathology and Laboratory Medicine at KK Women's and Children's Hospital, where she reviews neuropathology cases. Beyond her clinical duties, she has a keen interest in research and has contributed to several publications in the field of neuropathology. Appointed as the department's laboratory director for digital pathology in 2023, she leads the integration of digital pathology into the department's daily operations.
