

**Ang Beng Ti**  
*Singapore*

A/Prof Ang trained in neurosurgery at the National Neuroscience Institute (NNI), Singapore, and at Vancouver General Hospital and BC Children's Hospital, affiliated to the University of British Columbia in Vancouver, Canada. During his residency, he carried out bench research defining molecular mechanisms in oligodendrocyte development and myelination. A/Prof Ang is currently a senior consultant in the Department of Neurosurgery at the SGH campus of NNI, with a subspecialty practice in endonasal endoscopic skull base surgery and radiosurgery. In addition, he is a clinician-scientist and leads the NNI Neuro-Oncology research effort which explores glioblastoma tumorigenesis and its implications for patient-tailored therapy. He also contributes to medical education as an Associate Professor at the Duke-National University of Singapore (NUS) Medical School.
