

Wan-Yee Teo
Singapore

Dr Wan-Yee Teo, a clinician-scientist, is Head and Principal Investigator of the Pediatric Brain Tumor Research Office at SingHealth Duke-NUS Academic Medical Center (AMC), Singapore. The research focus of her group is in the brain tumor microenvironment, particularly in pediatric brain tumors, and translating research findings in tumor biology and genomics to bedside benefits for children with brain tumors. She completed her clinical training in Pediatrics and Pediatric NeuroOncology in the USA, and is board certified with the American Board of Pediatrics, and the Royal College of Pediatrics and Child Health in the UK. Her research training was completed in the Cancer Genomics Program at Baylor College of Medicine, USA. Her research combines genomic methodologies and mouse models to study the complex regulation in the developmental biology of brain tumors.

Topic: Drug Development for Paediatric Brain Tumours Using Patient Derived Orthotopic Brain Tumour Xenograft Modelling
